## (Android Developer)

**Address:** 36, Shree Shubh Residency, Vav –Jokha Road Jokha, Kamrej, Surat - 394326

**Telephone:** +91-9328010435 (Mobile)

**Email:** jayesh17296@gmail.com

- I am an Experienced App Developer with Kotlin. I have almost 5.5 years + of experience in Android Development.
- Assist in software architecture development, prototyping, debugging, and testing Reviewing Product Feature Specifications and creating design documentation and Test Plans.
- Scripting and coding of test cases Lab support including server installation, backup, and replacement Hands-on coding in C++, Java, Kotlin, SQL, and SQLiteProvidecradle-to oversight of software project management, leading the research, design, development, documentation, testing, and rollout of enterprise applications.
- I have done many complex apps before like the food delivery app, RFID tag app, barcode scanner app, amazon services app, taxi-driver apps, e-commerce apps, social apps, social media apps, quiz apps, dating apps game tournaments apps, etc.

### Summary

- Emphasis on error-free code.
- Proven self-starter with excellent organizing and decision-making skills.
- Good interpersonal skills with an ability to work as a committed individual and motivated team player.
- Good understanding of database design and applications.
- Continued commitment to training and knowledge of emerging technologies.
- Lazy about writing code so try to write/find short methods instead of long code, perfect to implementation of new technology for better performance.
